

## Net Nanny Wins Award for Best Internet Filter Software by Top Ten REVIEWS

Tuesday, April 3, 2007

-- This marks the third year in a row a ContentWatch product has taken top honors --

**SALT LAKE CITY - April 3, 2007** - ContentWatch, the leading provider of parental controls solutions, today announced that its consumer filter, Net Nanny, has received the Gold award from TopTenREVIEWS for the Best Internet filter software. This marks the third year in a row that it has received the award, maintaining itself as the best overall brand and technology in family-safe computing.

"ContentWatch combined a well-known reliable name, Net Nanny, with the cutting edge technology of ContentProtect to create the ultimate Internet safety software," according to TopTenREVIEWS. "Simply put-the Internet can be dangerous and contains unacceptable content. Children can be protected with filtering software and this is the best."

Net Nanny is a powerful filtering tool that allows you to determine what Internet content enters your home. It comes with maximum protection and pre-set monitoring functions, which you can easily customize to meet your family's unique needs.

"We are honored to receive this award as it shows the strength of Net Nanny in the industry, not only as the most-trusted brand, but also a solid technology. As more time is spent on the Internet, the need for a reliable solution is extremely important," said Jack Sunderlage, CEO and president of ContentWatch. "Our goal to make the Internet safer for all individuals and protect them from predators is further strengthened with this award."
